PRODUCTION AND PLANT PLANNING

SERVICES

Our innovative methods and experience in the planning of new production plants, their manufacturing processes, as well as the value-maintaining measures secure your company goals efficiently and just-in-time.

With our worldwide experience we are the reliable companion for your company in every integration project. We accompany you from the selection of the location to the founding of the company all the way through to the successful market launch of your product.

02

03

RELOCATION OF PRODUCTION AND INTEGRATION OF NEW EQUIPMENT

SERVICES

We support your growth and accompany you on the way to new locations and production targets. And whenever we identify potential, we integrate it profitably into the relocation process.

TROUBLESHOOTING

SERVICES

We ensure for you the output of your production facilities and the required product quality. In case of equipment failures and/or quality problems we take over the fault diagnosis and the organization of shutdown measures to ensure that your delivery commitments are met.

Furthermore, if necessary, we organize the safeguarding of your supply chain at short notice and rectify faults/malfunctions worldwide directly on site.

SUPPLIER QUALIFICATION

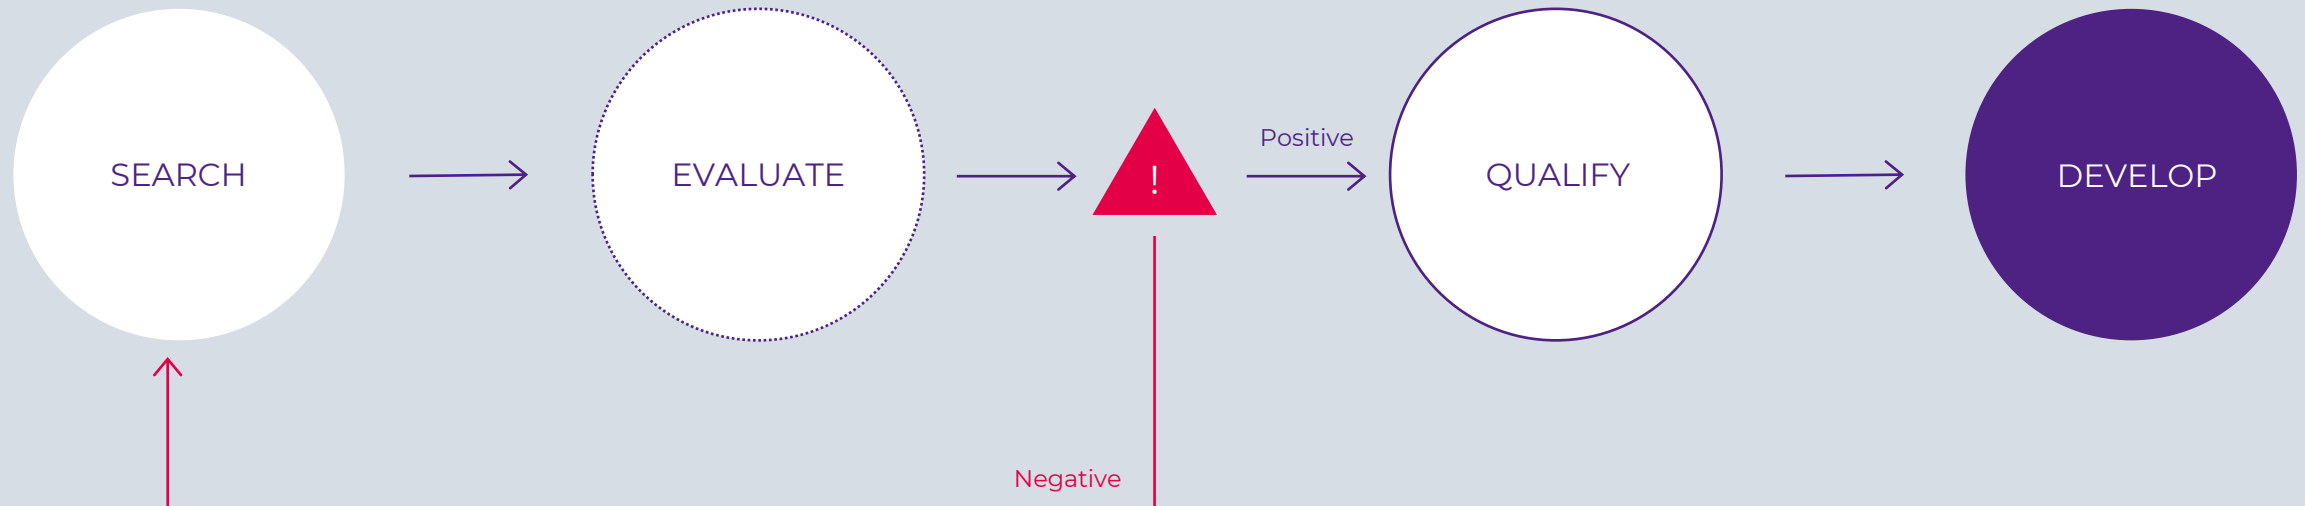

SERVICES

Constant compliance with quality parameters and on-time delivery commitments are the parameters of supplier qualification with a direct impact on the client's company.

We help you to evaluate the qualifications of your current and planned suppliers and take over the necessary qualification measures.

According to your requirements, we take over the development or expansion of your supplier portfolio for you.
